

STOP READ ENTIRE LABEL BEFORE USE

DIRECTIONS FOR USE

Product is ready to use and does not need to be diluted. *Shake well prior to use.*

Always ensure sprayer nozzle tightly closed in the off position prior to shaking. **Direct**
Deterrent & Repellent Use: To repel and treat Bufo Toads, snakes, iguanas, and other small reptiles, or amphibians that pose an immediate threat to you or your pet (nuisance animal). **How to Apply:**

1) Spray directly on the nuisance animal, directing stream towards the face/head area. *For Bufo Toads:* focus application on parotid gland area (large wart-like formations on the upper neck, behind eyes). Continue to apply 2 to 6 sprays, fully saturating the top (back) of the nuisance animal or until the animal leaves the vicinity. Do not spray product near or around your pet's face as drift may contact your pet and serious eye damage can result. *When treating Bufo Toads:* If the toad presses into the ground (does not flee), it may be releasing bufotoxin. Immediately remove your pet from the area; if this is not possible, continue to spray the parotid glands to cover as much bufotoxin as possible. *Never spray product near your pet's face.*

Note: spraying a Bufo Toad more than 6 times may result in anesthetization; however, even if a Bufo Toad is anesthetized, it can still poison and/or kill your pet. Use a shovel or other tool to relocate anesthetized toads or other animals away from pets and pet areas. *If you suspect your pet has been exposed to bufotoxin, bitten, or exposed to any other toxins or chemicals call your veterinarian or animal hospital immediately.*

Spot Treatment Use: Apply outdoors in lawns, backyards, around patios, home foundations, landscaping, designated pet areas and other non-hard surfaces to treat suspected or known harborage, nesting areas or boroughs of Bufo Toads snakes, iguanas, other small reptiles or amphibians. **How to Apply:** 1) Remove any debris, branches or other items that would interfere with direct spray contact. 2) Spray target area until fully saturated. 3) Reapply every 30 days or as needed. **How to Use Sprayer:** 1) Turn the spray nozzle counterclockwise to set the spray pattern to a preferred stream. 2) Squeeze trigger repeatedly to spray. 3) When done set the sprayer to the off position by turning the nozzle clockwise until it stops. 4) Store and carry with the sprayer in the off position to prevent leakage and to maintain product potency. **Before Use:** Do not apply this product in a way that will contact people, pets, or other domesticated animals, either directly or through drift. *Never spray product near your pet's face as eye irritation, damage or blindness can result.* If product comes in contact with your pet, follow the guidelines in the first aid section. Only spray product pointing towards the ground. Do not spray product pointing upward, above head or in any manner that would put spray or mist at or above eye level as significant injury and/or damage to eye can result. Do not spray or apply product in winds strong enough to move spray. *Formula may stain surfaces.* If staining is a concern test an inconspicuous area prior to use. *This product can make surfaces slippery.* When possible avoid application on hard surfaces where people and pets walk, such as pavers or sidewalks. Do not allow people or pets to walk on treated areas until dry.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Harmful if inhaled. Avoid breathing vapor or spray mist. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

AVISO! Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.

FIRST AID STATEMENTS

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **If on skin:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

For medical emergencies call your poison control center at 1-800-222-1222. Have the product container or label with you when calling a poison control center, doctor, or going for treatment.

ENVIRONMENTAL HAZARDS

This product is not intended to be used in lakes, canals, or other bodies of water. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment wash water or rinsate. This product does not contain any ingredients that are known to be toxic to bees, however, micro-encapsulated insecticides which are used on crops are potentially harmful to other pollinators.

PHYSICAL HAZARDS

Combustible. Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Storage: Reclose container tightly after each use by turning sprayer nozzle clockwise until it stops. Store in a cool, dry area inaccessible to children and pets. **Disposal and Container Handling:** Nonrefillable container. Do not reuse or refill this container. **If empty:** recycle if available otherwise place in trash. **If partly filled:** Call your solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

GUARANTEE: If for any reason you, the consumer, are not satisfied with this product, mail us your original proof of purchase with the dated store receipt showing the price you paid for a full refund of your purchase price. Please allow 6-8 weeks for processing.
